

I am registering a public complaint to the FCC for the simple reason that a terrible wrong, permitted to occur by the FCC, can only destroy this country if it is not stopped from occurring right now; the FCC is the agency with the power to either save America or to destroy America by allowing Sinclair Broadcasting Company--Rupert Murdoch owner of Clear Channel Communications must be stopped, as well; between the two monopolizers spewing their poison through the public's air waves is an obscenity and threatens us and future generations as far as the eye can see and the brain can fathom.

Sinclair Broadcasting's decision to force their stations to air an anti-Kerry documentary days before the election is a clear example of the dangers of media consolidation.

Sinclair uses the public airwaves free of charge, and is obligated by law to serve the public interest. But when large companies control the airwaves, we get more of what's good for the bottom line and less of what we need for our democracy. Instead of something produced at "News Central" far away, it's more important that we see real people from our own communities and more substantive news about issues that matter. Far more important, though, is coverage of national news, politics, and elections. It is blatantly clear that there has been and continues to be an imbalance that benefits only the Bush administration at the expense of all Americans who are losing their rights and freedom as a direct result of the brainwashing taking place to guarantee votes for George W. Bush and against John Kerry. This is in direct violation of the agreement between those owning media with free airspace provided by the government to present the news without bias, with responsible journalistic ethics, fairness and equity, objectivity, giving the people fact based information without spinning, twisting, and editing of their own or personal opinion. It is irrefutable proof that the opposite is what we are getting from Sinclair and Murdoch on too many channels to list here; and their intention to gain even higher percentages of their monopolies by influencing legislation to alter the present laws that restrict them only slightly their quest to gain total and complete control of the media in order to force their own twisted beliefs on the rest of us. That is not what the news is supposed to be about; it is not about them, it is about us.

When the FCC acknowledges their duty to prevent these monsters from continuing to poison airwaves and take the swift, direct, and permanent action to not just get rid of these slimy offensive zealots who have far too much influence for the wrong people in the wrong party for freedom to survive, but take the initiative in getting legislation passed that will reduce the percentage of media ownership by any person or entity by at least 2/3 what it now is, we will have achieved true control and oversight to protect our interests as citizens of the United States of America. It is the duty of the FCC to do exactly that.

The extent of repercussions from monopolies actions show why we need to strengthen media ownership rules, not weaken them. They show why the license renewal process needs to involve more than a returned postcard. Thank you.
